

NATURAL PRODUCT

Product Description

Reclaimed wooden panel is made from the retired or damaged old ship. The wood is from a hundred years old trees, in various variety of species such like primary Mesua ferrea, stone vertebral, Queensland's wood, Catalpa wood.

Strictly speaking it is a kind of antique solid wood wall tile or mosaic because the size of the panel is brisk shaped. Reclaimed wooden panel is a retro-styled decorative material that is extremely beloved by many senior designers or architectures; imagine you walk into a coffee bar or tea room with historic wooden wall tile decoration, for sure that it will bring you back to old-world age of voyage exploration.

The main characteristic

Handcrafted wall art of historic and weathered wood salvaged from actual boats, each piece's imperfections make it unique... no two pieces are alike. Beyond the eco-responsibility of reusing materials, it's indisputable that reclaimed wood panel brings beauty and

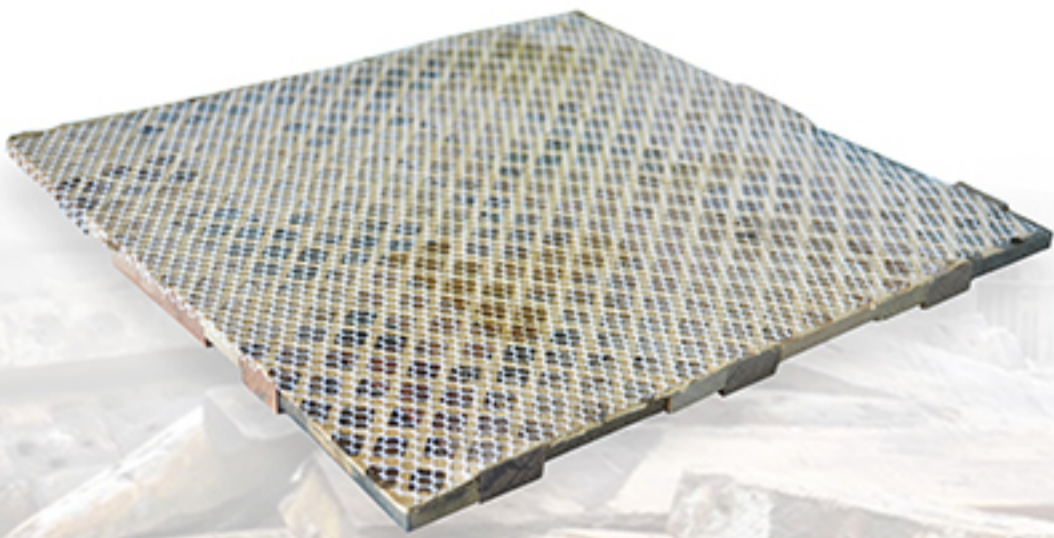

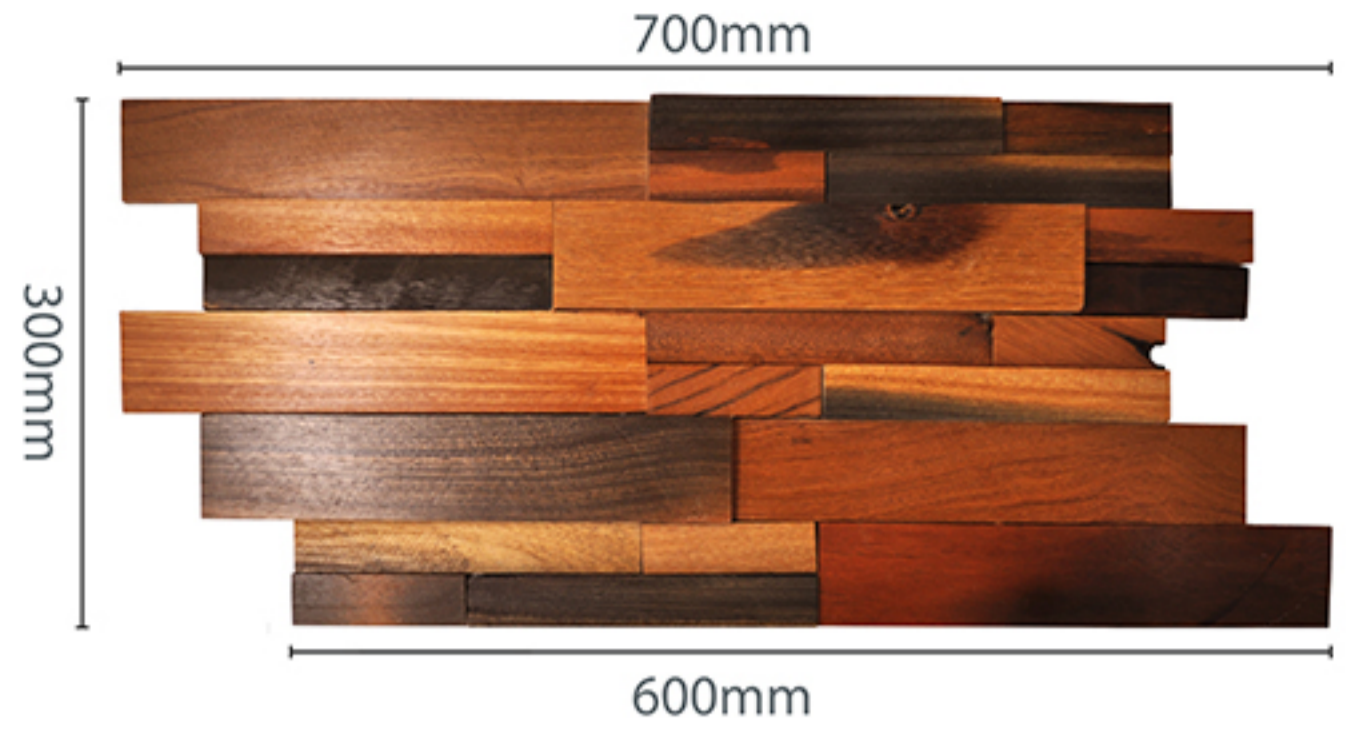

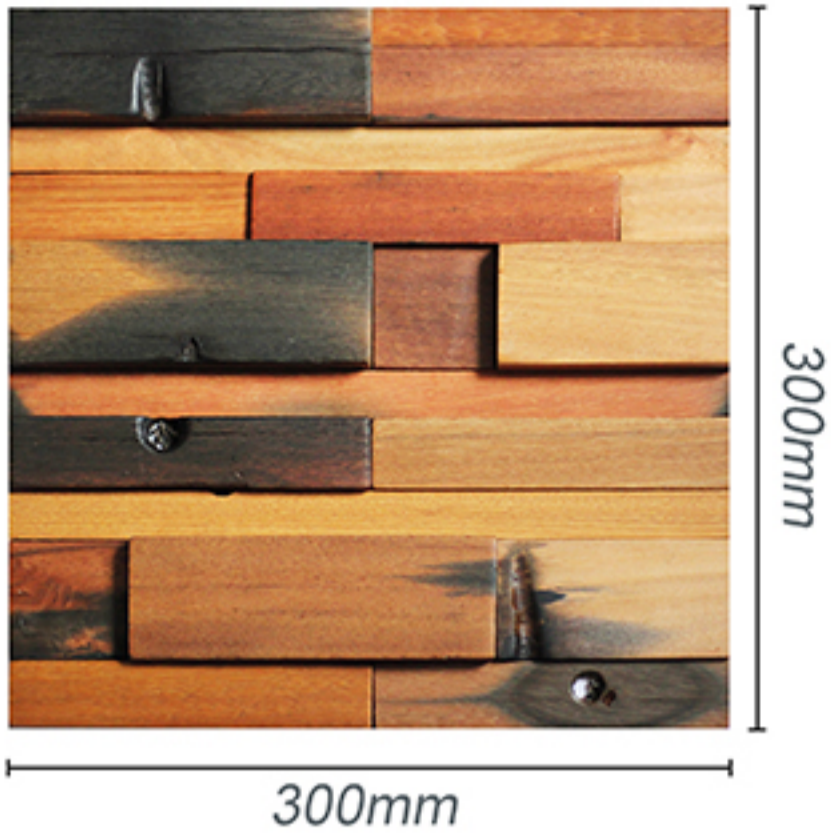

Features and advantages

- a) Nature, eco-friendly and fashionable*
